

Pinnacle Plumbing^{NT}
FOR ALL YOUR PLUMBING NEEDS

Capability Statement

Welcome to Pinnacle Plumbing NT

Founder and owner Stephen Stavrinos and Project Manager Antonio Billias bring over 30 years of experience in the local plumbing industry to their varied client base. Their dedication to a high quality of service, along with their considerable expertise have made Pinnacle Plumbing NT the plumber of choice for commercial companies, industries and homeowners across Darwin.

At Pinnacle Plumbing NT, the team works to ensure a standard of professionalism and quality by partnering with only licensed and insured plumbers during the completion of works. This is in accordance with the Australian Plumbing Standards, as well as local regulations and the company's own stringent OH&S guidelines.

For their clients, Pinnacle Plumbing NT have a strong reputation for their courteous, friendly and affordable service, as well as their effective approach which brings customers back time after time. A focus on delivering an on-time and professional service, along with a guarantee that all plumbers operating under the Pinnacle Plumbing NT business are licensed and certified, it's no wonder Pinnacle Plumbing NT is the best option for everybody from commercial clients to homeowners.

“

Pinnacle Plumbing NT Pty Ltd is a local Indigenous owned and operated plumbing business. Our expert team serve the industrial, commercial and residential plumbing needs of the Greater Darwin Region.

”

Our objectives

At Pinnacle Plumbing NT our objectives have always been to:

Complete all works in a timely manner and without negatively impacting the operation of facilities, tenants and /or businesses

Deliver the contracted works in alignment with the Project Delivery Services (PDS) schedule requirements and the needs of our clients

To achieve a 'zero harm' outcome through comprehensive and uncompromising risk management, particularly those risks relating to health, safety and environment

We are committed to making a positive impact in the Greater Darwin community by actively supporting and empowering Indigenous Australians. We firmly believe in the importance of providing employment opportunities and fostering educational initiatives that promote plumbing practices and skills.

Through our inclusive hiring practices, we actively seek to employ Indigenous Australians within our team. We recognize the immense value and unique perspectives they bring to the plumbing industry. By creating a diverse and inclusive workforce, we not only contribute to the economic growth of the community but also provide meaningful career pathways for Indigenous individuals.

Moreover, we are dedicated to educating and up-skilling Indigenous Australians in plumbing practices. Through various training programs and initiatives, we aim to equip them with the necessary knowledge and skills to succeed in the plumbing field. We believe that by empowering Indigenous individuals with practical skills and industry expertise, we are nurturing self-reliance and fostering a sense of pride and achievement within the community.

Pinnacle Plumbing NT is proud to contribute to the advancement and empowerment of Indigenous Australians in the plumbing industry. By providing employment opportunities and education, we strive to create a more inclusive and equitable society, where everyone has the opportunity to thrive and succeed. Together, we are building a stronger, more resilient community in the Greater Darwin area.

Our Services

At Pinnacle Plumbing NT, we prioritize customer satisfaction and adhere to the highest industry standards. Our team works closely with clients to assess their specific requirements and provide tailored solutions that meet their needs and budget. With our commitment to excellence, reliable workmanship, and attention to detail, we have earned a reputation as the go-to plumbing service provider for plumbing projects in the Northern Territory. Trust us to deliver reliable, cost-effective, and long-lasting solutions that ensure the smooth operation of your plumbing systems.

Sewer & Storm-water Main

Installation, repair and remediation

When it comes to sewer and storm-water mains, we understand the critical role they play in maintaining a healthy and functional infrastructure. Our experienced team utilise advanced techniques and state-of-the-art equipment to ensure precise installation, prompt repairs, and effective remediation. Whether you require new main installations, repairs to existing infrastructure, or remediation to address issues such as leaks or blockages, we have the expertise to deliver top-quality results. Our team of skilled professionals is well-equipped to handle projects of any scale, ensuring efficient and reliable services throughout the greater Darwin region.

Potable Water Main

Installation, repair and remediation

Pinnacle Plumbing are your reliable and experienced partners when it comes to the installation, repair, and remediation of potable water mains. With our expertise in potable water main projects, we ensure the efficient and accurate installation of water mains that meet industry standards and regulations. Our skilled technicians employ advanced techniques and cutting-edge equipment to ensure precise connections, minimal disruptions, and optimal flow. Whether you require new installations, repairs to existing infrastructure, or remediation to address issues such as leaks or corrosion, our team has the knowledge and experience to deliver exceptional results.

Hot & Cold Water

Services, installation, repair and remediation

For all of your hot and cold water services, we understand the importance of a reliable and efficient supply for residential, commercial, and industrial properties. Whether you need new water service installations, repairs to existing systems, or remediation to address issues such as leaks or low water pressure, we have the expertise to deliver top-quality results. Our team prioritise customer satisfaction and adhere to the highest industry standards and work closely with our clients to assess their specific requirements and provide tailored solutions that meet their needs and budget. With our commitment to excellence, reliable workmanship, and attention to detail, we have established ourselves as the trusted choice for hot and cold water service projects in the greater Darwin region.

Potable Water Treatment Plants

Installation or repair

As your reliable and experienced partner, when it comes to the installation and repair of potable water treatment plants, the team understand the critical importance of clean and safe drinking water for communities. With our expertise in potable water treatment plant projects, we ensure the efficient and accurate installation of treatment systems that meet industry standards and regulations. Our skilled technicians have in-depth knowledge of various treatment processes and employ advanced techniques to ensure optimal performance and water quality. Whether you need a new treatment plant installed or repairs and upgrades to an existing facility, we have the experience and expertise to deliver exceptional results.

Wastewater Treatment Plants

Installation or repair

As experts in the installation and repair of wastewater treatment plants we understand the importance of effective wastewater management for environmental sustainability. The team at Pinnacle Plumbing NT ensure the efficient and accurate installation of treatment systems that comply with industry standards and regulations. Our experienced plumbers have in-depth knowledge of various treatment processes, including biological, chemical, and physical methods, and use advanced techniques to ensure optimal performance and environmental compliance.

Backflow Prevention and Thermostatic Mixing Valves

Accredited new installation, certification, servicing and general maintenance

The team at Pinnacle Plumbing NT provide comprehensive solutions for backflow prevention and thermostatic mixing valves. Our accredited professionals are well-equipped to handle new installations, certification, servicing, and general maintenance, ensuring the safety and efficiency of plumbing systems. Backflow prevention is crucial to safeguarding potable water supplies from contamination and thermostatic mixing valves play a vital role in maintaining safe and consistent water temperatures. Our skilled experts are well-versed in the installation, certification, and maintenance of these valves to ensure optimal performance and prevent scalding incidents. We also provide reliable servicing and general maintenance to ensure the longevity and effectiveness of your thermostatic mixing valves.

Camera Inspection

Reaching up to 30m and sewer machines up to 30m

At Pinnacle Plumbing NT, we offer cutting-edge camera inspection services and powerful sewer machines capable of reaching up to 30 meters. Our camera inspection service utilises state-of-the-art technology to visually inspect pipelines and identify any issues or blockages. Our specialised cameras can reach distances of up to 30 meters, allowing us to thoroughly assess the condition of your plumbing system. This non-invasive method saves time and eliminates the need for unnecessary digging or disruption, ensuring accurate diagnosis and targeted repairs. In addition, our high-performance sewer machines are designed to tackle even the toughest blockages. Our machines can effectively clear clogs and obstructions in sewer lines, restoring proper flow and preventing future problems. Our skilled technicians are experienced in operating these machines safely and efficiently, minimising downtime and inconvenience for our customers.

Commercial Maintenance

Specialists in commercial maintenance

We specialise in providing comprehensive commercial maintenance services to ensure the smooth and efficient operation of your facilities. Our team of skilled professionals are equipped to handle maintenance projects of any scale, delivering reliable and high-quality services throughout the Northern Territory region.

When it comes to commercial maintenance, we understand the critical role it plays in preserving the functionality and longevity of your infrastructure. Our experienced team utilise advanced techniques and state-of-the-art equipment to perform regular maintenance, prompt repairs, and effective upgrades. Whether you require routine maintenance, emergency repairs, or system improvements, we have the expertise to deliver top-quality results.

With client satisfaction as our top priority, we adhere to the highest industry standards. Our team works closely with clients to assess their specific requirements and provide tailored maintenance solutions that meet their needs and budget. With our commitment to excellence, reliable workmanship, and attention to detail, we have earned a reputation as the go-to service provider for commercial maintenance in the Northern Territory.

Stephen Stavrinis

Born and raised in Darwin, and with more than 15 years experience in the plumbing industry here in the NT, Stephen Stavrinis is one of the directors of Pinnacle Plumbing.

Not only does he understand what is required to deliver jobs on time and in budget in Darwin's unique market, he also prides himself on providing the highest quality in service delivery to his clients.

Stephen is a proud Indigenous man with a keen interest in creating meaningful and lasting change, not just in the local community but also in the Northern Territory at large. While originally hailing from Alice Springs, Elliot and Borroloola, Stephen's family can now be found at many stops between Darwin and Adelaide.

Pinnacle Plumbing brings a great sense of pride and dedication to their work, and a considerable part of that can be attributed to Stephen's connection to the Northern Territory and his commitment to its future.

Stephen holds an Advanced Tradesman's License, with Install and Test Backflow Prevention Devices and Install and Commission Thermostatic Mixing Valve Endorsements, Working at Heights, Elevated Work Platform License, Ochre Card, Baseline Industry DCAC (National) and Cleared PF166 NTPFES access pass.

Stephen is a proactive member of the Local Indigenous Business Community:

- Public Officer and Board Member at the Northern Territory Indigenous Business Network.
- Participated in the AMP Employment Services Men's Workshop.

Antonio 'Tony' Billias

With over 15 years of experience in the plumbing industry, Antonio "Tony" Billias has built a reputation

for excellence that spans from his hometown of Darwin to Melbourne and various regional and remote areas across Australia. Tony attributes his dedication and passion for the trade to witnessing Darwin's growth and transformation, though he recognizes that not all changes have been for the better.

In addition to his work in urban centers, Tony has had the privilege of living and working in several Indigenous communities, including Wadeye, Lajamanu, and Arnhem Land. These experiences have enriched his understanding of the unique challenges faced by remote communities and have shaped his approach to delivering sustainable and practical plumbing solutions. His time in these regions has also deepened his respect for Indigenous culture and informed Pinnacle Plumbing NT's commitment to community-focused, environmentally-conscious practices.

Driven by a strong commitment to sustainability, Tony ensures that Pinnacle Plumbing NT continuously seeks innovative, low-impact solutions for every project. His leadership is focused on reducing waste and eliminating outdated practices, aligning the company with modern environmental standards.

Tony is highly qualified, holding an Advanced Tradesman's Licence with specialized endorsements for the installation and testing of Backflow Prevention Devices and Thermostatic Mixing Valves. He also possesses a Working at Heights certification, Elevated Work Platform Licence, Ochre Card, as well as Backhoe and Skid Steer Licences, ensuring a comprehensive skill set for tackling any challenge.
